LICENSE TERMS.

Without prior written consent from Intrepid Control Systems, the Licensee of the Software may use the Software ONLY with hardware provided by Intrepid Control Systems.

This License is effective as of the time you receive the Intrepid Control Systems' Software and will continue until you cease all use of the Intrepid Control Systems' Software and return or destroy all copies thereof, or until it is automatically terminated upon your failure to comply with the terms of this License.

Licensee shall not provide multi-user access to the Programs by calling the Programs as a server from other programs without procuring specific rights to do so by Intrepid Control Systems.

Licensee may make backup copies of the Programs as necessary to support the use of the Programs in accordance with this Agreement. Licensee may not remove any copyright, trademark, proprietary rights, disclaimer or warning notice included on or embedded in any part of the Programs. All copies of Programs shall contain all copyright and proprietary notices as in the original.

LICENSE OPTIONS.

Floating License (Hardware-Key). Licensee may elect to install the Programs on multiple computers and insert the purchased Intrepid Control Systems' Hardware containing a Hardware-Key to activate the installed Program.

Use by consultants and temporary employees working outside of the Licensee's facilities is prohibited. The License Administrator is responsible for ensuring that all persons permitted to have access to the Floating License programs comply with the terms and conditions of this software license agreement.

Should the device become non-functional due to damage, a new device is to be purchased at the original cost of Hardware-Key. Should a Hardware-Key become lost, a new Program must be purchased at the then current list price of the Product.

Computer License for the Windows platform only. Licensee may elect to install a single instance of the Program on a single designated computer, provided the Programs are only operated from that designated computer's console by a single person at any given time (a "Designated Computer Installation Type"). This Designated Computer Installation Type is intended to accommodate a single Windows computer shared by multiple users. In the event that the Licensee for a Designated Computer Installation becomes disabled or is replaced, the license may be transferred to another computer provided that the licensee signs a written license transfer agreement supplied by Intrepid Control Systems. Intrepid Control Systems reserves the right to limit the number of times a license may be transferred.
